

existing Road 233 to a trail or completely decommissioning the road; or (3) Use/improve an existing alternative road (Road 522 and 1803, from State Highway 14 at the mouth of Red River up to the intersection of Road 233 at the mouth of Relief Creek). The Forest may consider converting the existing Road 233 to a trail or completely decommissioning the road.

Lead and Cooperating Agencies

The Nez Perce-Clearwater National Forests of the USDA-Forest Service is the lead agency. Cooperating agencies include: the Nez Perce Tribe and Bonneville Power Agency.

Responsible Official

Rick Brazell, Forest Supervisor, Nez Perce-Clearwater National Forests, 104 Airport Road, Grangeville, ID 83530 is the responsible official for this proposal.

Nature of Decision To Be Made

The Nez Perce National Forest will decide whether or not to complete the Crooked River Meanders project and the extent of location of stream rehabilitation. The Forest will also decide whether or not to re-align the Crooked River Narrows Road and the extent and location of road reconstruction. The forest will decide what design and mitigation measures and monitoring would be included.

Preliminary Issues identified include the effects to cultural resources, public access, and future road maintenance costs.

Permits or Licenses Required

Permits that may be needed for this project are related to Clean Water Act (CWA) and the Endangered Species Act. If necessary, permits may include: CWA—Section 404 permits from the Corp or Engineers, Stream Alteration Act Permit from Idaho Department of Water Resources, CWA—Section 401 Certification from Idaho Department of Environmental Quality, Incidental Take Permits included as part of the Biological Opinions from NOAA Fisheries and U.S. Fish and Wildlife Service, or CWA—Section 402 NPDES permits from the Environmental Protection Agency.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. The U.S. Forest Service uses the process required by the National Environmental Policy Act (NEPA). NEPA requires a systematic, interdisciplinary approach to ensure integrated application of the natural and

social sciences and the environmental design arts in any planning and decision making that affects the human environment (42 U.S.C. 4332(2)(A)). Comments are accepted for 45 days after notification in the **Federal Register**.

These comments help identify significant issues and/or eliminate non-significant issues from detailed study in the environmental impact statement. Comments are most useful if they are specific. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

The Forest Service is seeking information and comments from other Federal, State, and local agencies; Tribal Governments, and organizations and individuals who may be interested in or affected by the proposed action presented in this notice of intent. A draft environmental impact statement will be prepared for comment in the future. The second major opportunity for public input will be when the Draft EIS is published. The comment period for the Draft EIS will be 45-days from the date the Environmental Protection Agency published the notice of availability in the **Federal Register**. The Draft EIS is anticipated to be available for public review in October 2014.

Dated: November 30, 2012.

Foreign-Trade Zones Board

[Docket 57-2010]

Foreign-Trade Zone 148—Knoxville, TN, Toho Tenax America, Inc. (Carbon Fiber Manufacturing Authority), Opening of Comment Period on New Evidence

On November 7, 2012, the Foreign-Trade Zones (FTZ) Board approved Subzone 148C at the manufacturing facilities of Toho Tenax America, Inc.

(TTA), located in Rockwood, Tennessee, with authority to manufacture carbon fiber for export and oxidized polyacrylonitrile fiber (Board Order 1868, 77 FR 69435, 11/19/2012). Board Order 1868 did not include authority to manufacture carbon fiber for the U.S. market; the request for such authority will continue to be reviewed by the FTZ Board's staff before the staff makes any recommendation to the FTZ Board for a final decision.

On November 16, 2012, the Industrial Development Board of Blount County, grantee of FTZ 148, made a submission to the FTZ Board (incorporating information from TTA) that included new evidence in response to the FTZ staff's preliminary recommendation not to authorize TTA to manufacture carbon fiber for the U.S. market at this time. Public comment is invited on the applicant's new submission through January 11, 2013. Rebuttal comments may be submitted during the subsequent 15-day period, until January 28, 2013. Submissions shall be addressed to the Board's Executive Secretary at: Foreign-Trade Zones Board, U.S. Department of Commerce, Room 21013, 1401 Constitution Ave. NW., Washington, DC 20230.

A copy of the applicant's November 16, 2012, submission will be available for public inspection at the address above, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

For further information, contact Diane Finver at Diane.Finver@trade.gov or (202) 482-1367.
